

## ELECTION COMMISSIONERS REPORT

### December is catch up month

In December is catch month where work that could not be accomplished because of the hectic election season is done.

Items such as a backlog of voter registrations, mail check cards, affidavits, and scanning poll books to name just a few which must be brought up to date. In addition hundreds of change of addresses, party changes, and name changes were also entered and scanned.

### Board Voter Registration System Updated...Switch to New State Wide Data Base

The Board's Voter Registration system was updated to SQL Server as one of the first steps for switch to a new statewide voter registration system. This along with a new computer system that will singly talk to the state data base in being installed over the few months in preparation to go "live" in the next couple of months.

The Oswego Board of Elections was chosen as one of the pilot counties to test the new state system and make operational and system suggestions.

### AVM's Planned for 2007 Elections

Recent information from the New York State of Elections concerning the problem with certifying the new voting systems have placed an impracticable time line for the use of new systems in the 2007 Elections.

As a result of this the Board is now preparing a plan to extend the use of the counties over 130 level machines including bringing in about 1/3 of them into our new warehouse on E. Seneca Street.

## Information Requests

Districts	4
