

### ELECTION COMMISSIONERS REPORT

#### Election Staff Trained on New Full Document System

The vendor, NTS, spent two days training staff on the new full document system and assisting in preparation for the conversion to the new system. This new software will allow board staff to view the complete voter record, when complete, on their computer screen. When finished the system will insure all critical records are protected against loss, reduce storage needs and allow faster access to voter files.

#### Polling Place Access Improvement Program

The board received notification the 397 page grant application had been accepted as complete and they will be processing it. The board undoubtedly may amend this application as machines are certified and allowable voters per machine are established. The number of sites depending on the NYS Board of Elections guidance may make it necessary to move sites or possibly increase the number.

#### Election 2006 Review

Election season went (after a few initial minor machine problems) without a hitch. Arguably the last year of the lever machine in Oswego County no break downs or problems. The Board spent several thousand dollars to repair a number of machines to insure primary and general elections went smoothly.

Additionally several poll sites were consolidated to provide more efficient polling locations.

Full election results are now on our web site in PDF format.
